時は大海賊時代。いまや伝説の海賊王G・ロジャーが遺した『ひとつなぎの大秘宝』をめぐって、幾人もの海賊達が旗をかげ戦っていた。そんな海賊に憧れるルフィは、海賊王を目指して航海に出る!!

“偉大なる航路、突入を果たしたルフィ達は、ジャヤ島で聞いた“空島”に辿り着く。調査の結果、400年前から続く黄金郷伝説は、この地にあると確信! お宝探しを開始する。だが、この地を支配する神・エネルと、先住民・シャンディアとの戦いに巻き込まれ、三つ巴のサバイバルに突入! 圧倒的なエネルの能力に次々と倒れる戦士達。そしてルフィもまた、黄金の鐘を狙うエネルに勝負を挑む。——この黄金の鐘には、400年前から現在に至るまで、探険家・うそつきノールランドと、シャンディアの大戦士・カルガラの友情が詰まっていた……。——エネルとの勝負を制し、戦いに終止符を打ったルフィ達は、高らかに黄金の鐘を鳴らしつつ、空島を後にする。

空から下りた一行は、G M号修繕の為、船大工を仲間にしようと動き出す。途中、船長や航海士のいない船とすれ違い、何やら怪しい雰囲気…。そして、とある島に辿り着いた彼等に、フォクシー海賊団と名乗る一行が現れ、仲間を失う恐怖のゲーム“デービーバックファイト”を申し入れられる!!

Reader: Hiya, Oda(T)! I always enjoy reading *One Piece* ♡! (And the Question Corner.) So I'd like to be the one to utter that popular phrase! ♡ But, wait! Oda(T) isn't there. Oh, well. **Let's begin the Question Corner!** ♡ Yes!! ♡ I said it! Sorry, Oda(T). ♡

--Chairman, Friends of *One Piece*

Oda: Whoa... So many hearts! It's cute, so I'll forgive you! ♡
I got up early and was all lined up and ready to go, but I'll forgive you! ♡

Reader: Hello, Oda Sensei! *One Piece* always cheers me up, makes me laugh and gives me hope. Thank you.
Take this!! Oda!! (...Sensei) Usopp Voodoo!! (DOOM)
"Ink spilled on the finished manuscript!" SPLASH!
"All the assistants are unable to come in today!" SILENCE
"After the manuscript was turned in, three blank pages fell out!" FWAP

--Hokuto Hyakuretsuken

Oda: That'll never work on me. THUD...!!

Reader: Hello, Oda Sensei, you with the bright smile! I always enjoy reading *One Piece*. I tried my hardest...even skipping meals...to count all the appearances of Panda Man (who could be your clone) in the Skypiea storyline. I gave it everything I had. And the result?! Panda Man appeared...DADADADADUM...17 times! Am I right?

--Hikari

Reader: Oda Sensei!! I looked for Panda Man throughout volumes 5 to 31 and found him 92 times!! Try for 100!!

--Panda Man 2

Oda: Good work, everyone. But I can't tell you the right answer. (← Actually I don't remember it.)

Q : I've got a question. If Wapol ate Luffy and Nami and Sanji and Zolo and Chopper and Usopp and Robin, and performed Miraculous Fusion like in volume 17, what would the result be?

--Kiyutarau(^_^;)

A :

Vol. 17:
MIRACULOUS FUSION

Q : Hello, Oda Sensei. I always enjoy reading your manga. I'll get right to my question. For the true identity of the "monster" in chapter 299 of volume 32, did you refer to the Brocken phenomenon often seen on the Brocken, the highest peak in Germany's Hartz Mountains? If you didn't, sorry. Please take care of your health and keep up the good work! ♡ --Akiu

A : Yes, I did. Brocken phenomena are also known as Brocken spectres. The explanation for them is just like in the manga, But the same phenomenon also occurs in Japan. Apparently the rainbow ring that appears around the shadow's head is called a "Goraigo" in Japanese, and a "Glory" in English. I wish I could see it. It sounds amazing!

Q : Hello, Oda Sensei. Let me get right to my question. In vol. 28, Luffy sang songs entitled “Song of the South Island” and “Song of the North Island.” Are there songs for the east and west? Please×99 tell me.

Q : Hello, Odacchi! We want to know our idol Tashigi's birthday. How about October 6. Since that can be read in Japanese to sound like the word “Clumsy”? Okay, that should be fine! How incredibly awesome--Chief Petty Officer Tashigi's birthday is October 6!

 ↑ I sound pretty cool, huh?

Q: Hello, Oda Sensei. A serious question came up, so allow me to ask you about it seriously. It's regarding the names of Eneru's special moves. It seems like many of them are the names of gods or spirits from Norse and Indian mythologies. Please explain in detail which gods and spirits you used.
 --And Kin no Ho

A: Okay. Let's see... There were a lot of special moves around then. I don't know about "in detail," but here's a simple rundown.

El Thor → Thor: god of battle and thunder in Norse mythology

Hino → Hino: the giant thunderbird of the Iroquois in North America

Kiten → Kiten: the Japanese thunder beast

Lightning Dragon → This refers to Julungul: the thunder god of Australia's Arnhem Land

Mamaragan → Mamaragan: the central Australian thunder god

Amaru → Amaru: This means falls from Heaven, or thunderbolts in Japanese

Kari → Karei: Ancient thunder god of the Semang on the Malay Peninsula

And so on. Also, I decided on the name "Varie" because thunder makes a sound like vaari vaari. In other words, it's all pretty made up. It's not any specific language.

Q: I've got a question, Oda Sensei. On page 71 of Vol. 30, Conis says "I need to go back!!" and then says "Heso!" (Belly buttons) I think it's a little weird if Heso means hello...

Would you explain it to me? I just couldn't stop thinking about it, so I finally decided to write you.

Please respond. --Pen Name: Wanko 🐾

A: You can think of it as an all purpose greeting on Sky Island. It doesn't correspond to any particular word in Japanese. It can, of course, mean "Good morning," "Hello" and "Good evening," as well as "How are you?" "Goodbye" and "Be careful," depending on the situation. You use it according to the context. If someone says "Heso" to you, you can respond "Heso." It just depends on the context.

Q: Hello. I'll jump right to my question! Tonjit was on stilts for ten years. How did he go to the bathroom?! S-Surely he didn't...

Please respond in Tonjit's language.
